

The
Royal Mint®
Experience

Unlock over 1,100
years of history

Who are we?

The Royal Mint Experience, which opened its doors for the first time in 2016, offers behind-the-scenes access to the sights and sounds of billions of glistening coins, hot off the press. It combines more than 1,100 years of history with the finest craftsmanship and cutting-edge techniques to show the precision striking of over 700 coins per minute for more than 60 countries worldwide.

The Royal Mint, which opened in Llantrisant in 1968, now offers much more than just coins with a range of gifts, jewellery, precious metals and historic coin collecting services. Discover all this and loads more at The Royal Mint Experience.

What do we do?

How are the coins in your pocket actually made?

Led by one of our knowledgeable tour guides you will explore how The Royal Mint makes coins, discovering the technologies and crafts that are used today to ensure that every coin is of the highest quality.

Your visit will take you on a journey, learning how coins have been made through the ages, how The Royal Mint has helped shape currencies around the world and how coins have had an influence on society in more ways than you would imagine.

Your visit also includes the chance to create your very own brilliant uncirculated coin, lift a 400oz gold bar worth over £400,000 and take away some fantastic photo-memories of your visit. You'll also have an opportunity to visit our gift shop to start (or add to) your very own coin collection, or take home your own piece of Royal Mint history.
